## **RECOMMENDATIONS**

If you have questions, please call your provider before proceeding. If your kit is missing components, call (800) 323-2784 for a replacement.

Cardboard kit box

Insulated cooler with lid (keep in kit box) (p

Ice pack (place in freezer immediately)

The testing for this profile consists of collecting 4 saliva samples for hormone analysis.

BEFORE YOU START: Please read all of the instructions carefully. Consult your physician for specific instruction and before stopping any medications. Make sure your physician has selected a test profile on the requisition form. Collect saliva on a day that is determined by you and your provider, considering the recommendations on page 4.

Plastic bag containing: 4 color-coded saliva tubes and 4 straws

Requisition form

FedEx Clinical Pak
Patient survey (USA Only)

FedEx Return Label/Stamp (USA Only)

### **DAY OF COLLECTION**

Do not take any supplements until after you have collected all four samples.

First saliva collection MUST be 30 minutes after awakening. Set a timer if necessary.

Do not eat or drink anything 1 hour prior to saliva collection.

Do not brush, floss, or have dental work done 30 minutes prior to saliva collection.

Do not consume food or drinks that contain caffeine.

Before each saliva collection, wash hands and rinse mouth with water, but wait 10 minutes to collect your saliva sample (to avoid dilution.)

Use of cosmetics, other than "anti-aging" creams, is permitted.

WOMEN & MEN ON HORMONES (estrogen, progesterone, testosterone, DHEA)		
Topical Hormones (cream)	Last dose prior to collection should be within a window of 12-24 hours before collecting your first sample	Do not apply topical or use sublingual hormones throughout the entire day of saliva collection. This will contaminate your sample and your test results
Sublingual Hormones or Troches (dissolved under tongue)	Last dose prior to collection should be within a window of <b>24-36 hours</b> , followed by two full glasses of water to cleanse the tissues. Then collect your first sample.	
Oral Hormones (pills)	Should be used as prescribed on the day of collection	
Injections, Subcutaneous Pellets and Transdermal Patches	Collect at the halfway point between doses	
CORTION (OLIVOCORTIONE CURRIENTATION		

#### CORTISOL/GLUCOCORTICOID SUPPLEMENTATION

CONSULT WITH YOUR PROVIDER for instruction if you are taking a cortisol supplement for adrenal support (or any other glucocorticoid for medical reasons). Note: certain medications, including hydrocortisone creams and asthma inhalers, contain cortisol. To evaluate your natural cortisol production, it is recommended to stop using cortisol-containing products 5 days prior to sample collection. Consult with your provider prior to stopping cortisol-containing medication(s).

#### WHEN TESTING MELATONIN

The last dose of melatonin and serotonin boosting supplements (i.e. 5 HTP, tryptophan) should be at least 36 hours before first sample collection. Note: CONSULT WITH YOUR PROVIDER for instruction if you are taking an SSRI or SNRI, as these can influence melatonin secretion.

OTHER	DAY TO COLLECT	
Women with menstrual cycles	Collect 1 day during days 19-23 of a 28-day cycle, counting the first day of your period as day 1	
Post-menopausal women	Collect any day of the month. If you are taking hormones or are on cortisol and/or melatonin supplementation, please read and follow the recommendations listed above	
Women who have had a hysterectomy		
Men not on hormones		
Adrenal function profiles only (cortisol, slgA, and/or DHEA)		
Women w/ hormonal IUD (and no cycle)		

Call your provider with additional questions. Please do not send any medications with your kit.

# 6

## SHIPPING

Collect saliva on a day that is determined by you and your physician, considering the recommendations on page 4.

Collect b

Collect before breakfast in the PINK TUBE (AM 30)
Collect 30 minutes after awakening (set a timer)

2

Collect before lunch in the GREEN TUBE (NOON)

Collect before dinner in the ORANGE TUBE (EVENING)

Collect right before bedtime in the BLUE TUBE (NIGHT)

- 1. 10 minutes before each saliva collection, wash hands and rinse mouth with water.
- 2. The first saliva collection must be 30 minutes after awakening. Timing is critical.
- 3. Fill all four tubes regardless of how many tests are ordered.
- 4. Tubes should be 3/4 full do not overfill. Bubbles/foam are OK.
- 5. Use of the included straws to funnel saliva into each tube is optional. Dispose of straws before shipping.
- 6. After each saliva collection:
  - ✓ Snap saliva tube closed tightly.
  - ✓ Record the date and times of the collection on the bag and on the requisition form.
  - ✓ Place saliva in freezer immediately. When all four tubes have been collected, place all tubes into plastic collection bag with absorbent material and keep in freezer with frozen ice pack until ready to ship.

### PREPARE THE PACKAGE

- 1. Ship Monday Friday only. You will be charged a pick-up fee if you call for a Saturday pick-up. Weekend or holiday collection: keep the specimen in the freezer until the following business day to ship.
- 2. \*Fill out the test requisition form completely and sign it. The test cannot be performed without a properly filled out requisition, and payment information, if required. Fill out the patient survey. US patients only: fill out the ABN on the back of the requisition form.
- 3. Remove Zip-lock bag containing frozen specimen tubes and ice pack from the freezer. Place these items inside the insulated cooler and replace the lid securely.
- 4. Place the insulated cooler inside the cardboard kit box. Place the requisition form, patient survey and any payment (if applicable) into the cardboard kit box. Close the cardboard box.
- 5. Open up the FedEx plastic Clinical Pak and affix the provided Prepaid label onto the bag in the designated location. Record the tracking number printed on the label if you want to track this delivery.
- 6. Place the cardboard box inside the Clinical Pak and seal to securely close.

\*Fill out ALL pages of the requisition, including collection date, DOB and sex. Any missing information will lead to delays.

## SCHEDULE A PICK-UP (USA ONLY)

To schedule a pickup, call FedEx toll-free at 1-800-463-3339 (1-800-GO FEDEX). When you hear the automated greeting, say "Schedule a pick up." The next prompt asks if the shipment is more than 150lbs, say "No." At the next prompt, say "Schedule a Pick up with a Label or Stamp." Reply "YES" when asked if the word "Stamp" is written on the waybill. You will then be asked for your address information. DO NOT USE A DROP BOX or leave your kit outside (especially in warm temperatures).

In some cases, Doctor's Data provides prepaid shipping from certain countries outside the United States. If that policy pertains to this collection kit, then country specific shipping materials (including an Air Waybill and instructions) will be included in the kit contents. If there are not any shipping materials included or you choose to use a different courier or level of service than provided, you must make your own shipping arrangements at your own expense.
